MISSION
To be diligent and efficient in all we do, maintaining the highest level of professionalism, quality, integrity and service. To respond to our client's needs, questions, and concerns with promptness, courtesy and respect. To be productive and contributing members of the communities in which our operations reside. To help preserve our environment by saving natural resources and landfill space.

ABOUT US
Q Recycling & Constructions Services Inc. is a self-performing CIVIL contractor with a focus on demolition, earthwork, concrete and drainage work. Our qualified personnel can offer you the assurance of dependability, experience, and competitive pricing. Highly skilled in a variety of construction trades, QRCS has had the pleasure to work with such powerhouses in the construction industry as Durotech, E.E. Reed, and Turner Construction among others.

QRCS is a minority-owned business enterprise. QRCS's two partners have a combined experience of over 25 years in the construction services industry.

Murtaza Badri is head of sales & estimating. He has 11 years of experience in the construction industry. He has priced and managed millions of dollars in construction projects and spearheaded the companies recycling and conservation efforts.

Qusai Kalolwala, head of field operations, is a graduate of University of Texas at Austin. With over 15 years in the construction and recycling industry, he has helped clear and recycle several dilapidated structures across Houston. With Qusai leading operations QRCS was also involved in Katrina and Harvey cleanup efforts in Louisiana.

SERVICES
Demolition
Team QRCS has the experience, equipment, and proper certifications to safely demolish any project. Our company utilizes the most current OSHA (Occupational Safety and Health Administration) training and certifications. We also recycle over 25% of all materials from our projects.

Earthwork
QRCS is able to efficiently complete the cut and fill process with our modern equipment and techniques. Our will perform a thorough earthwork analysis using the most advanced approaches and practices that save time and money.

Concrete
QRCS provides concrete installation services for commercial and industrial projects. Our organization has experience in left turn lanes, road projects, parking lots, and foundation pouring services.

Drainage
QRCS has completed several drainage projects in the Houston area. Our team has experience installing large-scale drainage systems including underground detention systems such as ADS systems, R-tank, and Contech systems.

Awarded 2022 MWBE Contractor of the Year by Turner Construction!
